

**AICC/TAPPI 2018 Corrugated Week  
Productive Machine Measurement Course:  
Benchmarking and Buy In**

**Indianapolis Convention Center | Indianapolis, IN  
Monday, September 24 & Tuesday, September 25, 2018**

**Course Description**

We all work to develop productive team members that understand their jobs, know how to measure their work, and collaborate to improve every day. In this course you'll practice using many tools of the *War Room*, or Productivity Center, where the enemy is waste.

Today's workforce is most productive and engaged when they are trained, equipped, and receive consistent helpful feedback. This course provides the tools and understanding to measure the right things and to communicate them for peak team member engagement.

**Tools for Buy-in**

- ⊕ Team Charter
- ⊕ Project Plan
- ⊕ A3 Reporting

**Tools to Measure Progress**

- ⊕ Key performance indicators
- ⊕ Overall Equipment Effectiveness

**Tools to Improve the process**

Find and eliminate problems

- ⊕ Fishbone Diagram
- ⊕ TIMWOOD waste reduction
- ⊕ Lessons Learned

**Course Instructor**

## **Scott Ellis EdD, Working Well LLC**

Dr. Ellis is a leadership and process improvement specialist who serves on AICC's faculty to assist in building Packaging School curriculum. Scott has served as a resource for development of individuals, teams, and organizations as a consultant, teacher, psychotherapist, coach, and general manager in the packaging industry for two decades. His pragmatic approach is focused on making it easy to do the right things right.
